TAXUS

A New Idea

- Grows well in shade or sun
- Tolerates city conditions
- Lends itself to modern or traditional design

The following Taxus are ideal for use as hedges:

Cuspidata nana, densiformis, media browni,—
media hicksi, media hatfieldi.

Here a Taxus hedge is used as a border for a rose bed at the home of Mr. Kriek.

The neat line of a clipped Taxus hedge accents a view or feature.

HEDGES

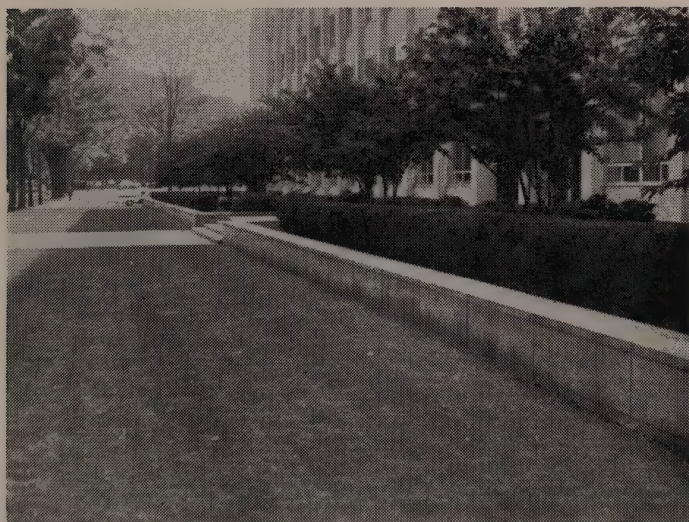

in Contemporary Design

THE INITIAL COST OF A TAXUS HEDGE IS JUSTIFIED:

1. By less maintenance.
2. By ease of trimming to retain desired size.
3. By outlasting any other type of hedge, thereby increasing in value.

Used in a foundation planting the Taxus hedge is effective and elegant in appearance.

Taxus are particularly well adapted for use in commercial landscaping, giving a neat business-like appearance.
